About the American Red Cross

Chartered in 1917, the American Red Cross has proudly served the Tri-State area helping people prevent, prepare for and respond to disasters and emergencies. Last year, the Red Cross touched the lives of more than 90,000 individuals and families through vital community services like blood collection, CPR & First Aid Training, Disaster Response, Services to Armed Forces and community events. Because the Red Cross is not a government agency, we rely on the community for support.

About the Red Cross Difference

Join the new generation of training from the American Red Cross – the nation’s premier leader in Preparedness training. What makes the Red Cross training stand out against the competition?

- **Two Year certifications** offered to participants who successful complete CPR & First Aid training courses.
- **Convenient classes** scheduled at a time that works for you-daytime, evenings and weekends.
- **Cost-effective training** including materials and instruction provided at competitive rates, whether you want one course or several. And because the American Red Cross is a non-profit organization, the dollars you invest in training go right back into your community to support preparedness and response programs.
- **Consistent training** nationwide through standardized courses with a solid base of practiced instructors to ensure whether you’re training in Evansville or Los Angeles, you’ll receive the same high quality training.
- **Complete emergency preparedness** from CPR, first aid and automated external defibrillator training to injury prevention courses, bloodborne pathogens and community disaster education, Red Cross training offers complete, flexible programs that help you stay prepared for virtually any life-threatening situation.
- **Courses developed by experts** in collaboration with leading educational and medical authorities. Red Cross first aid and CPR/AED courses incorporate the latest science; meet all OSHA's Guidelines for First Aid, and bring you a wealth of educational innovations.
- **Certified instructors** uphold the high quality, standardized training nationwide.
- **Participant certifications** backed by a nationally-recognized organization.
- **Relief from record-keeping** burden as participant and instructor records are maintained in a national database allowing you to focus on training and leaving the administrative chores to us.

Customized Workplace Training

Did you know after just 4 minutes without oxygen and blood flowing properly throughout a person's body, they can start to suffer permanent brain damage as the brain shuts down? What complicates that factor is the average response rate of professional medical teams in our area is 8 to 12 minutes. This spotlights why time is so critical during a medical emergency and having the essential tools and training on site at your facility could be the difference between life and death. **The American Red Cross remains an industry leader in preparedness training and AED facilitation; we want to help safeguard your business and your employees to be prepared and comfortable that when a life is on the line – you're ready to respond.**

Training Available:
1st, 2nd, 3rd Shift
6 Days a Week
On-Site, In Class, Online

Let us serve as your training department and customize a training program that meets your training needs, budget and helps safeguard your site, employees and reputation in our community. Our workplace safety training is a complete emergency preparedness solution that's smart for your employees and your bottom line. In fact, according to a U.S. Department of Labor, OSHA study shows a \$4 to \$6 return for every dollar invested in preparedness and safety training, with improvements in the costs associated with absenteeism, Workers' Compensation claims and productivity. With comprehensive, competitively priced and flexible programs, Red Cross training helps employees stay prepared for virtually any life-threatening situation and meets OSHA First Aid Guidelines. Whether its 3rd shift, in our classroom, on a weekend or online – whatever your needs - one phone call to the Red Cross can solve your training needs and help safeguard our

BUILD YOUR OWN ON-SITE TRAINING TEAM BECOME A RED CROSS AUTHORIZED PROVIDER

The Red Cross offers "train-the-trainer" courses in CPR/AED & First Aid to help train your employees to train others in lifesaving skills. It's easy to get started 1) Train the Trainers 2) Become an authorized provider 3) Benefit from the ease of scheduling, no minimums and training cost savings.

Specializing in AED Facilitation

Automated External Defibrillators (AED's) are used to respond to sudden cardiac arrest. Sudden cardiac arrest is a leading cause of death in the United States, claiming more than 200,000 lives each year. When a cardiac emergency strikes, seconds mean the difference between life and death. With each minute of elapsed time before defibrillation, the survival rate of the victim diminishes by approximately 10 percent. **The American Red Cross can help your business, workplace, group or organization create a customized AED Program including facilitate the purchase of an AED, train your employees in CPR, First Aid and AED and provide information on developing or upgrading emergency procedures.**
